

Armor Anywhere, from Rackspace

A cloud security platform delivering threat detection and 24x7x365 incident response from Rackspace security experts.

As businesses are moving workloads to the cloud, the top challenges continue to be security and compliance — including the lack of cloud security expertise in-house, the task of analyzing and responding to incidents in a timely manner before business impact and the need for unified protection across environments for regulatory compliance.

Experts Dedicated to Your Success

Rackspace offers the Armor Anywhere cloud security platform — delivering threat detection and 24x7x365 incident response from Rackspace security experts, as well as compliance for applications and data.

Key Benefits

The Armor Anywhere cloud security platform from Rackspace includes the following:

Threat Detection: Get advanced protection against cyber-threats through an integrated suite of security capabilities including intrusion detection systems (IDS), anti-virus, malware protection, file integrity monitoring (FIM) and vulnerability scanning.

24x7x365 Incident Response: Certified Rackspace security experts monitor alert activity to respond to incidents around-the-clock, and alert customers to critical issues that need to be addressed.

Audit-Ready Compliance: With security controls mapped to compliance mandates such as PCI DSS, HIPAA, HITRUST and GDPR, Armor Anywhere accelerates compliance for customers.

Log and Data Management: Armor Anywhere captures agent logs and stores them for 30 days. Customers can ingest, analyze and store additional logs from cloud-native and other network sources for up to 13 months.

Swift, Multi-Cloud Deployments: Deploy security in minutes with our lightweight agent that requires no hardware, making it best suited to protect your cloud environments.

About Rackspace

Rackspace is your trusted partner across cloud, applications, security, data and infrastructure.

- A leader in the 2019 Gartner Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide
- 3,000+ cloud experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience

- A Major Player in the 2019 IDC MarketScape for Emerging Managed Security Service Providers, U.S.
- 400+ networking and security experts with 500+ certifications in cyber defense, digital forensics, incident response, penetration testing and networking

Fanatical Experience™

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

Key Features

What you get with the Armor Anywhere cloud security platform from Rackspace.

Key Features and Services	Armor Anywhere
Intrusion detection system (IDS) (host-based)	✓
Vulnerability scanning and reporting	✓
File integrity monitoring (FIM)	✓
Anti-virus/anti-malware	✓
Audit-ready compliance for PCI, HIPAA/HITRUST, GLBA, GDPR	✓
Log management and retention (13 months)	✓
Armor management portal access for security insights	✓
Expert Services	
Security agent installation and set-up (Guidance provided to assist customers deploying into unmanaged Rackspace environments)	✓
Threat monitoring and analysis	✓
24x7 incident response from Rackspace security experts	✓
24x7 global SOC support	✓
Compatible Environments ¹	
Public clouds: Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP)	✓
Rackspace dedicated and virtual servers	✓
Rackspace Private Cloud: VMware	Coming soon
Customer infrastructure not managed by Rackspace (such as customer on-premises data centers, colocation or unmanaged public cloud environments)	✓
Compatible Third-Party Log Sources	
Armor Agents (e.g., IDS, FIM, Anti-Virus/Anti-Malware, vulnerability scans)	✓
Amazon GuardDuty	✓
AWS CloudTrail, AWS WAF, AWS VPC Flow Logs	Available upon request
Imperva/Incapsula WAF	Available upon request
Firewalls: Cisco ASA, Palo Alto Networks, Juniper SRX	Available upon request

Services Delivered Your Way

Rackspace combines industry-leading global security expertise with the advanced threat detection capabilities of Armor Anywhere for a service that your business can rely on around the clock:

- 24x7x365 Rackspace Global Security Operations Center (SOC), with locations in San Antonio and London
- 400+ certified Rackspace network and security experts available around the clock
- 500+ certifications earned including CCNAs and GIACs in Cyber Defense, Digital Forensics & Incident Response and Penetration Testing

Take the Next Step

Let's talk about how Rackspace expertise helps you achieve your goals.
